Smile F LAOS

F-Lao

—Since 2014—

Smile For LAOS
Smile From LAOS

The "F" in "Smile F LAOS" embodies the vision of connecting "Smiles directed toward Laos" with "Smiles coming from Laos."

Our Policies

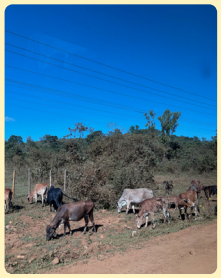

1. To spread the appeal of fair trade coffee from Laos
2. To provide educational support that promotes independence by utilizing the knowledge unique to students
3. To continue exploring support that meets the needs based on what was learned in Laos

Each year, we organize a study tour to Laos, where we visit coffee farms to conduct fieldwork and household surveys.
Through this research, we have come to understand the passion and dedication of the coffee farmers; at the same time, we have also observed issues such as children eating without washing their hands and trash left scattered throughout the villages.
Driven by a desire to help improve local education and sanitary conditions, we have—since our founding in 2014—consistently used the proceeds from our coffee sales to support children in Laos.

Laos

Located in the interior of Southeast Asia, Laos is a beautiful country blessed by the Mekong River and surrounded by abundant nature.
Although it is a developing country, it has experienced economic growth in recent years.
However, a significant disparity in living standards remains between urban and rural areas.

Country Name: Lao People's Democratic Republic
Capital: Vientiane
Population: Approximately 7.97 million (as of 2026)
Official Language: Lao

Educational Support

A portion of the proceeds from the coffee you purchase is reinvested in Laos.
During our annual study tour each December, we visit an elementary school on the Bolaven Plateau in Paksong, where we conduct workshops and donate educational materials that we have created.

Past Support Activities

Installation of simple water purification systems, donation of picture books, donation of math learning kits, donation of career guidebooks, hosting of educational workshops, installation of organic waste composting units, etc.

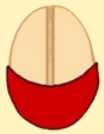

Champa Coffee

"Champa" is the Lao name for the plumeria—the national flower of Laos.
Inspired by this flower, which symbolizes "elegance," this original coffee from F-Lao was crafted with the goal of achieving a high-quality, refined flavor.
Sourced entirely from Laos, these coffee beans offer a gentle bitterness and a subtle acidity, characterized by a smooth mouthfeel and a delicate, nuanced taste.
This blend consists 100% of "peaberry" beans—a rare variation found within the already scarce Typica variety of Arabica coffee.

Coffea Arabica var. Typica

This variety is characterized by a fruity acidity and a gentle sweetness. It is known as a rare coffee bean that is difficult to cultivate and produced only in limited quantities.

Common bean
2 beans inside 1 pod

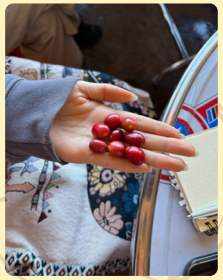

Peaberry
1 bean inside 1 pod

Peaberry

Normally, a coffee cherry contains two beans facing each other. However, on rare occasions, a cherry may contain only a single, round coffee bean. That is a Peaberry.
It is a rare bean that accounts for only 5% of the total harvest.
Each bean is packed with the nutrients of two beans, offering exceptional aroma, richness, and flavor.

An Ideal Growing Environment

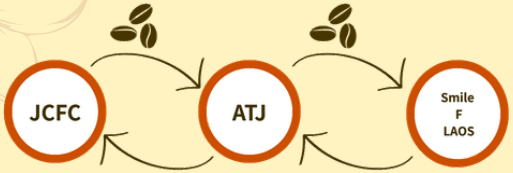

Our coffee is cultivated on the Bolaven Plateau in Paksong, southern Laos.
Blessed with high-quality soil, ample rainfall, abundant sunshine, and favorable temperatures, the Bolaven Plateau provides the perfect conditions for producing premium coffee beans.
The coffee is grown with great care by the members of the JHAI Coffee Farmers' Cooperative (JCFC) using natural farming methods—completely free from the use of pesticides or chemical fertilizers.

Fair Trade

We purchase coffee produced by the Bolaven Plateau Coffee Producers Cooperative (JCFC) on a continuous basis at a fair price, through the Japanese alternative trade organization Alter Trade Japan (ATJ).
This trading relationship is designed to support the improvement of the producers' livelihoods and their path toward self-reliance.

Enjoying delicious coffee leads to a support

Through the sale of fair trade coffee, we aim to create opportunities for coffee farmers in Laos and their children to lead better lives.
